40 Hour Truck Driver Classroom Training

10wks

This Class A CDL Classroom Training Program is designed to provide you with the first 40 hours of the full 160-hour training program as required by the FMCSA Entry Level Driver Training Law that took effect on 2/8/2022. Included in this training is the written material and instruction to help you obtain your Class A CDL Permit, along with D.O.T. Rules and Regulations, Safety, Pre-Trip Inspection and more. You will then have the opportunity to enroll with DriveCo CDL Learning Center to complete the required 120-hour behind the wheel training designed to prepare you for the state CDL skills exam.

Prerequisites: None

Mondays–September 23 to November 25

8am-12pm or 4pm-8pm

Location: Gary Works

1221 E. Ridge Rd., Gary, IN

Instructor: Roger Dunn

Appliance Troubleshooting

10wks

Appliance troubleshooting class will provide and teach students how to troubleshoot and repair units. They are taught the basic and easy ways to make repairs and save money. Students will be able to service washers, dryers, ranges and refrigerators and save time and money. Prerequisites: None

Wednesdays–August 28 to October 30

8am-11am or 4pm-7pm

Location: Leon Lynch

Instructor: Roland Alvarez

Garage Doors Installation, Repair and Maintenance

3wks

The garage door is probably the door to your home that gets used most frequently. It also has more moving parts than a standard door, so you need to keep an eye on it to ensure that it works well and keeps your home secure. Topics covered: broken springs, cables and openers, damaged rollers, tracks, and brackets, unhinged panels, remote problems and general maintenance. Prerequisites: None

Tuesdays–October 8 to October 22

8am-11am or 3:30pm-6:30pm

Location: JobLink

Instructor: TBD

NEW

♦Lawn Equipment Maintenance and Repair

12wks

As summer ends and cooler weather approaches, how will you prepare your lawn equipment so it will work properly next spring? Is your leaf blower and snowblower ready for the upcoming seasons? Repair shops charge seventy-five to one hundred dollars an hour for tuning up, repairing or prepping equipment for storage. Why not learn to do these things yourself and save. Bring your equipment into class for hands-on training. Prerequisites: None

Thursdays–September 26 to December 19

No Class: November 28

8am-11am or 3pm-6pm

Location: JobLink

Instructor: Michael Daly

Private Pilot Ground School

8wks

This class will prepare the student to take the FAA Private Pilot Written Exam and give students all the knowledge needed to begin flight training. Topics include aerodynamics, weather, weight and balance, systems & malfunctions, airports & ATC, human factors, cross country planning, etc. Mill students attending our ground school receive a flight training software system kit containing a logbook and E6B, and a year subscription to Garmin Pilot (\$379 value). Books and charts needed to complete their training are also included in the tuition as well as 3 hours of simulator time. Prerequisites: None

Tuesdays AND Thursdays–September 17 to November 7

6pm-8:30pm

Location: Eagle Aircraft Flight Academy

4001 Murvill Rd., Valparaiso, IN

Instructor: Sam Kohanyi

Residential HVAC Certification and Training

16wks

The HVAC industry is rapidly expanding and is something you rely on every day. Wouldn't it be great to fix your own system, help friends and family, or maybe even start a small business? This class will train the learner to troubleshoot, service, and install HVAC systems safely. Emphasis will be placed on electricity, refrigerant handling and management, system troubleshooting, and basic installation procedures. Each student will have an opportunity to earn an EPA 608 card to purchase and handle refrigerant. Prerequisites: None

Mondays–August 19 to December 9

No Class: September 2

9am-12pm or 3pm-6pm

Location: Leon Lynch

Instructor: Juan Aguilar

technical

Residential Wiring 1

8wks

This residential wiring course was designed to provide the student with a thorough understanding of residential electrical systems and practices encountered in a home. No electrical experience is required for this course. The hands on portion of this course includes the wiring of switches, outlets, and lighting fixtures.

Prerequisites: None

Mondays–September 23 to November 11

9am-12pm or 3:30pm-6:30pm

Location: JobLink

Instructor: Tim Spanos

♦String Instrument Repair Open Lab

3wks

Keeping ones guitar, bass, or other string instrument in top playing condition is important to any musician. In this course you will learn the basics of guitar/string instrument maintenance and set-up including neck, fingerboard/fret adjustment, string intonation, setting string action, and repair of cracks and surface refinishing. Bring in your instruments for a tune-up. Also, this class can be used as open lab time for those working to build a new or complete an instrument already begun in a previous session.

Prerequisites: None

Saturdays–November 2 to November 16

9:30am-1pm or 2:30pm-6pm

Location: JobLink

Instructor: David Dolak

Understanding the National Electrical Code

8wks

This course introduces the wiring student to the National Electrical Code. Students will be taught how to reference, interpret and answer questions using the 2023 NEC. Students will receive the newest NEC and tabs to better organize books.

Prerequisites: Residential Wiring 1 or any electrical experience

Thursdays–October 24 to December 19

No Class: November 28

9am-12pm or 3:30pm-6:30pm

Location: JobLink

Instructor: Tim Spanos

Vinyl Siding Installation

4wks

As energy costs continue to soar, many homeowners will invest in home improvements to minimize their heating and cooling expenditures. Such improvements include replacing vinyl siding. Although such improvements do save on energy costs over time, the initial cost of having others perform the work can be quite expensive. This class will equip students with the knowledge and skills required to properly and affordably weather-proof their own homes. Prerequisites: None

Thursdays–September 12 to October 3

8am-11am or 3:30pm-6:30pm

Location: JobLink

Instructor: TBD

woodworking

Dale Meiners & Nick Nash

♦Build a Mobile Workstation

14wks

In this class students will build portable work stations that will be used in the JobLink woodshop. Students will also learn to build carts that may be used for other purposes such as for your kitchen, garden, workshop, garage, etc. (Wood allowance is \$100 per student.)

Prerequisites: None

Mondays–August 19 to November 25

No Class: September 2

9am-12pm or 3pm-6pm

Location: JobLink

Instructor: Nick Nash

FREE CLASS

♦Custom Projects

15wks

Woodshop Custom Projects gives you access to JobLink's state of the art woodshop to build something not listed in the catalog, or to finish a previous project. Bring in your ideas and images of something you would like to build, and we will combine all the best ideas into a 3D rendering. Get inspired by wood choices, finishes, and other projects in the shop. Learn how to use all the machinery, and some hot tricks to work better and faster! New students receive a \$150 wood allowance! Prerequisites: None

Wednesdays–September 4 to December 11

9am-12pm or 3pm-6pm

Location: JobLink

Instructor: Dale Meiners

♦Woodshop: Wooden Lighting

15wks

Let's build custom lighting! In this class we will be cutting shapes on the laser engraver, and assembling pieces to form beautiful lighting. Electrical hardware is included for surface mounted and free hanging applications. Choose from multiple exotic or local wood species, and finish in the stain color you choose.

(Wood allowance is \$150 per student.)

Prerequisites: None

Tuesdays–September 3 to December 10

9am-12pm or 3pm-6pm

Location: JobLink

Instructor: Dale Meiners

Wooden Light Fixtures

business

Business Planning I: How to Develop a Business Plan

8wks

This is an introductory course in developing a business plan that requires no previous knowledge of the business planning process. This course will provide you with the ability to learn what is involved in developing a plan for a successful business. You will learn about an operational plan, personnel planning, and finally a marketing and a financial plan. Spouses may attend at no cost. Planning is the key to success.

Prerequisites: None

Thursdays–September 5 to October 24

8am-10am or 4pm-6pm or 6pm-8pm

Location: Leon Lynch

Instructor: Scott Williams

How to Start a Not-For-Profit Organization

8wks

This course is intended to teach all of the steps in starting a Not-For-Profit Organization. This course will include a discussion on setting up a State Non-Profit entity, laws that govern Non-Profits, selecting a name and setting up an EIN and a Board of Directors, as well as, grant opportunities and fundraising. In addition this course will address recordkeeping, insurance and the entire IRS Form 1023 tax-exempt application process. Spouses may attend at no charge. Prerequisites: None

Wednesdays–September 11 to October 30

8am-10am or 4pm-6pm or 6pm-8pm

Location: Leon Lynch

Instructor: Scott Williams

Free Vacations: Affordable Fun Free Family Travel

1wk Harvest Planter

1wk

Earn hundreds of thousands of airline frequent flyer miles and hotel reward points without ever stepping foot on a plane or paying for a hotel and redeem them for high-value trips. Or earn "cash back" to pay for your vacation (or to pay your electric bill, rent, mortgage, etc). Flights and hotels are typically the most expensive part of your vacation. Learn a "Beginners Strategy" then graduate to more "Advanced Strategies" that earn you a million+ reward points a year. Reward programs are detailed. Includes a 100-page digital book (a \$39.95 value). Go to www.GinaHenry.com for more info. Prerequisites: None

Wednesday–October 9
9am-12pm or 3pm-6pm
Location: ZOOM
Instructor: Gina Henry

Fun at the Farm

1wk

Come check out fall on the farm! Farmer Janet will give you a tour of Windmill Acres, a small family-owned farm/nursery and pumpkin patch. Feed the farm animals, pick a pumpkin on the hayride, enjoy all the festive decorations while you peruse the mums and cold-hearted plant selection. Be sure to stop by the shop and try some donuts and an apple cider slushie! Cost covers one student and two children entrance/activities and includes a free pie pumpkin for each participant/guest. Additional guests are welcome at \$9.00 for children and \$6.00 for adults. Prerequisites: None

Saturday–October 5
9am-5pm
Location: Windmill Acres
3361 E. Brunswick Rd., Beecher, IL
Instructor: Janet Gatto

Cooler weather is almost upon us! Get your porch ready for the fall with a festive autumnal planter! You will create a unique piece to enhance your porch, choosing from a wide selection of mums and other decorative grasses, kale, cabbage, and more. Your one-of-a-kind planter will last through the entire harvest season until the snow falls! Prerequisites: None

Monday–September 16
9am-10:30am or 3pm-4:30pm
Location: JobLink
Instructor: Janet Gatto

Learn to Play the Piano/Keyboard:

10wks

Levels 1, 2, 3, 4 or 5

This class is designed for all levels of Piano students. Learning and playing the piano/keyboard can open up an incredible door of creativity for you, as well as a fulfilling life of music making. Learn from an instructor with over 45 years of playing experience and over 30 years of teaching experience. The instructor will work with groups and individuals based on their piano level. This class is available onsite, or can be Zoomed with the instructor online, or can be a hybrid class (onsite and/or Zoom) in case you cannot make it to class due to your schedule or other time conflicts. Prerequisites: None

3D Designs Using Tinkercad Tips and Tricks **Online Class**

3wks **Become an Excel Power User**

4wks

Taking this course will empower you to design and or edit your own or downloaded 3D models in a systematic way by learning the Tinkercad software. Many time saving tips and tricks will be introduced in this course. Learn how to use this online platform to create 3D Digital Designs, prototype products and create functional objects for your home, office, or even as unique gifts for friends. If you have taken the 3D printing class(es) or considering purchasing and/or taking 3D Printing classes in the future, this class will greatly benefit your 3D printing experience.

Prerequisites: Must have internet access and email

Mondays AND Wednesdays–August 19 to September 11

No Class: September 2

Location: ONLINE

Instructor: George Zahariadis

3D Printing ENDER 3-VER 3 SE **Printer or Equivalent Model**

4wks

Bring your 3D Printing to a new level with the Ender 3-Ver 3 SE 3D Printer or equivalent model. This printer now comes with basically worry-free auto-leveling using the CR touch sensor and a strain sensor for auto Z offset, auto filament loading and unloading process, a rigid dual Z-Axis to avoid wobbling, and a sprite extruder for better quality and faster 3D prints. Come to this class to see and use the latest Ender 3 Series 3D Printer or equivalent and learn how to 3D Print or upgrade your 3D Printing experience. You can purchase this printer at a discounted price of \$55.

Prerequisites: Tinkercad Tips and Tricks Online class or equivalent knowledge in 3D Designing and Editing

Wednesdays–September 18 to October 9

8am-11am or 4pm-7pm

Location: JobLink

Instructor: George Zahariadis

In this class we will discuss and apply intermediate to advanced Excel functions and features that will help you analyze and manage your data more efficiently. We will cover the following topics: how to hide and/or protect cells and sheets, different ways to delete blank rows, using Excel Data Validation to prevent data entry errors and duplicate rows, IF functions, Database functions, Sorting and Filtering, HLookup and VLookup and the new Office 365 XLookup and XMatch functions, link formulas to different sheets and workbooks, Array Formulas, and how to merge and separate values. Prerequisites: Excel Introduction Class or equivalent knowledge

Wednesdays–August 21 to September 11

8am-11am or 3:30pm-6:30pm

Location: Leon Lynch

Instructor: George Zahariadis

NEW

CNC Wood Cutting and Engraving

4wks

In this class, you'll learn everything you need to know to design and create your own CNC wood cut and/or engraving projects. We will discuss the CNC router operation, how to setup the router table correctly, how to program a router path to cut the materials specified—at the correct feeds and speeds, within the desired tolerances, design principals and techniques, and how to get your designs out of the computer and onto a CNC machine. Students will create projects in class and can come to Open Labs to create their own customized wood projects. Prerequisites: None

Tuesdays–September 3 to September 24

11am-1:30pm or 3:30pm-6pm

Location: Ridge Road Training Center

1221 E. Ridge Rd., Gary IN

Instructor: George Zahariadis

technology

Create 3D Christmas Ornament Lithophanes with 3D Printer

If you have a 3D printer, this class will help you make Christmas tree ball/ornament decorations. You will be able to take personal photos and 3D print them into Christmas ornament lithophanes. Lithophanes as was shown in the 3D Printing classes, are embossed photos produced by a 3D printer. The print results don't appear to show much at first but shine a light through one, and you'll be amazed at the awesome details. You can use your Christmas lights or add special battery powered LED lights to shine through the litho ornament. Christmas Lithos are popular selling items during the holidays. Prerequisites: MUST have taken or enrolled in 3D Filament Printing class(es) or have equivalent experience in 3D Filament printing

Tuesday–November 19
8am-10:30am or 7pm-9:30pm
Location: JobLink
Instructor: George Zahariadis

NEW

Create a 3D Filament Dry Box

Common problems that degrade and weaken 3D printing filaments are collecting dust, and absorbing moisture, falling off the roller handle and tangling while printing. In this class we will attempt to prevent all of the above issues by creating your own 3D filament dry box. You will be provided with all the 3D printed parts along with other materials necessary to assemble and create one dry box. The dry box provides an environment for maintaining the quality of filament. Storing your filament(s) in dry box(es) can extend their useful lifespan and produce better quality 3D prints. Prerequisites: MUST have taken or enrolled in 3D Filament Printing class(es) or have equivalent experience in 3D Filament printing

Wednesday–October 23
8:30am-11:30am or 3:30pm-6:30pm
Location: JobLink
Instructor: George Zahariadis

NEW

1wk Create a Website Using WordPress

Have you ever wanted to be a web designer? Well, here is your chance. Learn all the new techniques to create a new interactive website. We will walk you through the proper steps in design, formatting, and linking your pages. Then when it is finished, we will walk you through publishing to the web. If you ever wanted to create your own website, this is the class for you.

Prerequisites: None

Thursdays–October 3 to October 24
10am-12:30pm or 3pm-5:30pm

Location: JobLink

Instructor: Christopher Boyer

Edit Photos Using Photopea a Photoshop Alternative

4wks

Photopea is an impressive free web-based photo-editing program that closely mimics Photoshop. It is used for image editing, making illustrations, web design or converting between different image formats. In this class we will learn to work with Photopea's photo editing features. Topics to be covered are, adjusting photo color, cropping, working with layers, removing backgrounds and objects, cleaning up photos, fixing fading, red eye, resizing, and adding objects and text. Prerequisites: None

Mondays–August 19 to September 16
No Class: September 2
8am-10:30am or 3:30pm-6pm

Location: JobLink

Instructor: George Zahariadis

NEW

MOS Word Certification

7wks

This class introduces the student to WORD. Learn how to create and navigate a document, save, print and enhance it. Enhance it by learning bold, italic, font face changes, font size changes, text color changes, underline and more. You will learn how to use the autocorrect, spell checker, insert bullets, and insert special characters, columns, tables, graphics, line and page formatting features. A must class for the beginner and advanced student. No more feeling like you are not in control! At the end of this class, you will take one exam and become MOS Word certified!

Prerequisites: None

Tuesdays–September 3 to October 15
10am-12:30pm or 4pm-6:30pm
Location: Computer Education Institute
100 W. US Highway 20, Porter, IN
Instructor: Chris Turner

Sublimation Printing

3wks

Sublimation printing is the method of applying an image/saying to specially coated items such as ceramics, metals, fiber board and polyester cloth, using four main ingredients: sublimation ink, paper, heat and pressure. In this class you will learn how to use sublimatable materials and equipment to sublimate your picture and/or phrase on a mug, t-shirt, a mousepad, keychain and take home or give as a gift or memento. The sales growth for custom gifts and apparel is increasing tremendously, here is your opportunity to learn how to sublimate and possibly join this growing business trend. Prerequisites: None

Tuesdays–December 3 to December 17

8am-10:30am or 7pm-9:30pm

Location: Leon Lynch

Instructor: George Zahariadis

♦ Technical Open Labs

1wk

We have open labs available for you. Bring your computer, laptop to lab so we can help you with repairs or upgrades. We can back up your data, upgrade, and check your computer/laptop for viruses or malware in this lab. If you have any Firestick, alarm or security camera, cell phone or tablet questions or repairs, if you have questions about a class you have recently taken or missed, this will be your opportunity to come talk to George, our instructor. Come and use our sublimation, vinyl cutting, laser engraving and 3D printer equipment and improve your skills learned in your classes. Prerequisites: None

Thursdays–August 22 and/or August 29

September 5 and/or September 12

Tino Fulimeni Scholarship

Tino Fulimeni was a lifelong Steelworker who rose to Special Assistant to former USW President George Becker. Tino was a great supporter of the Career Development Program. He believed very strongly in education for Steelworkers and the value of the learning process. This Institute for Career Development scholarship is a tribute to Tino and all he stood for and fought for. He would be proud that we are giving money in his name to young deserving children or grandchildren of Steelworkers to support their education.

Application Deadline is **September 1, 2024**

Apply Online
at
www.icdlearning.org

Winners Selected **Winter of 2024!**

Rules of Eligibility

- Applicant must be a 2024 high school graduate enrolled in college in the fall semester of 2024 or a college student returning to school in the fall semester of 2024 or spring semester of 2025.
- Applicant must have maintained, in the past, at least a cumulative 3.0 grade point average and can demonstrate this with a transcript if selected.
- Applicant must be the child/grandchild of a United Steelworkers member who is currently eligible to participate in the Career Development Program.

Restricted Classes

Out of your \$2,000 a year customized course allowance, you can only use \$1,250 per year on restricted personal development classes.

Customized Courses

Each participant is limited to \$2,000 annually for courses in this category. These are the classes created by the learning centers specifically for steelworkers. Nearly all of the classes in this category are advertised in our catalogs.

Tuition Assistance Program

The Tuition Assistance Program allows steelworkers to attend colleges and schools of their own choice as long as the schools are accredited institutions of post-secondary education or are recognized by a state board of vocational education. The benefit will pay \$2,500 in tuition assistance.

Issuance 14

Students who have an educational and career goal in mind and need more than \$2,500 yearly to achieve those goals should apply for Issuance 14. If the student has a specific goal in mind, they have to create an educational development plan and apply for the combination of these funds. If approved, a steelworker may be eligible for up to \$4,500 yearly.

Issuance 15

The ICD policy "Issuance 15" allows retirees access to tuition assistance if; that retiree has begun a career goal using TAP, has retired within the last 12 months, and if there is money available from the previous year's tuition assistance budget.
