Look for student comments throughout this catalog, just like the one you see below. Get recommendations from fellow steelworkers!

“What a great program! I can fix my car, do my own taxes, and even build a computer!”

It's easy to register by phone!

JobLink: 219.399.8135 or 8136
Leon Lynch: 219.398.9363 ext. 112
Riverdale: 708.392.1083
Appliance Repair Lab  (12wks)
Students in this class will be introduced to real-life experience in the service world. It will highlight how to troubleshoot common problems with refrigerators, washers, dryers and ranges. If it's an appliance problem - we’ll fix it in this class. Be your own service technician! Prerequisites: None
Wed - Apr 3 to Jun 19  8am-11am or 4 pm-7 pm
Appliance Depot
4728 Hohman Ave, Hammond, IN  Roland Alvarez

Basic Plumbing  (7wks)
Would you like to avoid the high cost of simple home plumbing repairs? Learn to fix toilets and faucets as well as install water heaters. The basics in this class include how to: dismantle and install faucets, install O rings and washers, solder copper water lines as well as how to solder fittings and glue PVC to ensure a closed system. Prerequisites: None
Thu - Apr 25 to Jun 6  8am-11am or 3:30pm-6:30pm
JobLink  Bill Cameon

Build a Planter Bench  (6wks)
Create a planter bench from scratch. Working off plans for an attractive wooden bench with attached planters, you will help to build a this seating for the Local 1010 Union Hall. The benches built will be commemorative benches for the entrance to the hall. Learn some great skills (including laser engraving!) and help your community. Prerequisites: None
Mon - Apr 15 to May 20  9am-12pm or 3pm-6pm
JobLink  Nick Nash

Bicycle Repair  (6wks)
Learn how to fix flats, true rims, adjust brakes, and gears, inspect cranks and front forks. Also presented: proper gear selection, riding safety, and training plus proper bike fit and seat height. Bring your bike to class! Prerequisites: None
Wed - Jun 5 to Jul 10  9am-12pm or 3:30pm-6:30pm
JobLink  Joseph Hynek

Build Your Own Guitar or String Instrument  (11wks)
This class will teach traditional woodworking techniques using both hand and woodshop power tools to learn about the science and craft of lutherie (string-based musical instrument construction). We will apply understanding about the physics of vibration energy, the mathematics of fret board design, the mechanical properties of various woods, and engineering principles to construct a quality acoustic guitar, ukulele, or other braced-type string instrument. Students with prior experience can build a carved top acoustic or solid body electric guitar as per instructor's approval. (Students buy their own materials - check with the instructor on the first day) Prerequisites: None
Thu - May 16 to Aug 1  9am-1pm or 3pm-7pm
No class Jul 4
JobLink  Dave Dolak

“I really enjoyed meeting new people and the camaraderie in the class;”

“I repaired two of my guitars. I really like the creative interaction with other students."

The instructor was very thorough and lively.”
Introduction to AC Installation

Air conditioning is one of the hottest (no pun intended) trades in demand. The cost of installing a new or replacing an older unit can be a minimum of $3,000.00. Learn the basics of mechanics, electrical, and general maintenance as you learn how to install an A/C unit. This is definitely a hands-on class as we will be installing a unit at the Leon Lynch.

TBA 8am-11am or 3:30pm-6:30pm
Leon Lynch Dennis Matney

Lawn Equipment Maintenance and Repair

Summer is here and besides allergies and insect bites, your lawn mower no longer starts. The chain saw you used to trim the trees in April is too dull to cut bread. And how about that snowblower with the broken starter cord? You could spend a small fortune getting these things repaired or you could repair them yourself. Bring your equipment to this twelve-week class and learn how to make the necessary repairs. You will save the labor charge ($60-75.00 per hour) and usually get your equipment in working order before the repair shop can. Prerequisite: None

Tue—June 25 to Sep 24
No class Jul 23 and 30
8 to 11 am OR 2:30 to 5:30 pm

MTE Prep

This 14-week course will introduce students to topics related to industrial electrical maintenance and troubleshooting. AC/DC circuits and motors, print reading, analog and digital circuits, test equipment, computers, DC crane control, power distribution, PLC's, power supplies, transformers, instrumentation and hydraulics. This course is for people who want to take the Ramsay test, or get a better understanding of MTE principals. Prerequisites: None

Thu - May 23 to Aug 29 9am-12pm or 3:30pm-6:30pm
No class: Jul 4
JobLink Joe Hynek

“Look for the Diamond”

If space is available, any class with a diamond (♦) next to the title is a class open to spouses of active Local 1010 and 1011 and retired Local 1010 and 1011 steelworkers. Classes without a diamond next to them are for active steelworkers only. (See the Spring-Summer 2019 R/S List of Classes and Registration dates on pg. 28 for details)

“I liked how the instructor would go out of his way to make sure everyone understood the material.”

**Wireless Security Cameras - Mini Class** (3wks)

High definition wireless security camera systems are inexpensive, easy to install and configure. There is no reason to pay a service provider $30 or more per month to rent security cameras. Attend this hands on class and learn to select and setup your own cameras quickly for minimal cost. We will show you how to use your smartphone or tablet to monitor your cameras, too! Prerequisites: None

Mon - Apr 29 to May 13 9am-12pm or 3pm-6pm
JobLink  Bill Needles

“*I will now be able to install security cameras at home.*”

**Build a Table II** (15wks)

In Build a Table II, we will take table construction a step further, creating more advanced tables. Build an incredible dining room table, hallway table, sofa table, night stand, coffee table, or any table you might need. We will incorporate drawers, leaves, and secret compartments, too! Prerequisites: None

Tue - Apr 23 to Jul 30 9am-12pm or 3pm-6pm
JobLink  Dale Meiners

**Build a Ukulele—with KIDS!** (2wks)

Build a ukulele while spending quality time with your young one! In the first class, Moms / Dads / Grandparents / Aunts / Uncles, will assemble the easy ukulele kit, while the young artists paint them. On the second day of class, we will finish building, learn how to tune them, start making music, and have a big sing-a-long. This class will take place inside our woodshop at JobLink and all tools will be available to build this 21”, 4-string ukulele kit. Ages 5-10 would enjoy this class, but all ages are welcome! Prerequisites: None

Sat - Aug 3 to Aug 10 9am-12pm or 3pm-6pm
JobLink  Dale Meiners

**Cutting Boards / Table Tops** (4wks)

Take this four-week class to build beautiful cutting boards and/or table tops. Cutting boards are easy to make, a great gift that you made, and well... people use them every day! Get exposure to our woodshop in an easy class, where you will can make more than one item. Wood is included, so just come in, have fun, and go home with great cutting boards! Prerequisites: None

**Paint a Sign!** (1 wk)

If you’ve always wanted to make your own beautiful or fun wood sign but you’re not sure how to start, then we have the answer! All materials and instruction are supplied. All you have to do is show up and get ready to amaze yourself with your newfound artistic abilities!

You must register by April 16th at the latest, so that you are able to choose your project before the class starts. Prerequisites: None

**Herbs 101** (1 wk)

A herb is a plant that is valued for flavor, scent and medicinal qualities. Herbs date back to the beginning of time. Learn how to plant, harvest and save your own herbs. Identify different kinds of herbs and how to use them in cooking, recipes will be provided. You will also take home your own herb pot to get started. Prerequisites: None

**Reuse/Re-purpose Mosaic Table** (4 wks)

Do you have a table that has a scratched or ruined top? Or did you find a unique table at a yard or estate sale that needs a little TLC? In this class you will learn how to give that table a new look by adding a mosaic finish. Or if you just want to learn the beautiful skill of mosaic art, we’ll have materials for you here in class. Prerequisites: None

**Learn to Play the Piano/Keyboard Level 1** (10 wks)

Learning and playing the piano/keyboard can open up an incredible door of creativity for you, as well as a fulfilling life of music making. Learn from an instructor with over 45 years of playing experience and over 30 years of teaching experience. This class will take someone who is new or with little experience, through a solid foundation of music theory and the basics of piano/keyboard playing. This class will also cover and teach you the basic chords along with chord progressions. This class can serve as the beginning of your musical journey. Prerequisites: None

**Learn to Play the Piano/Keyboard Level 2** (10 wks)

This class is a continuation of Learning to Play the Piano/Keyboard—Level 1. Students will continue to learn more music theory, which will give them the ability to play a wider variety of songs. Additional notes and techniques will be introduced, giving students the opportunity to play songs with fuller sounds. Prerequisites: Learn to Play the Piano/Keyboard Level 1 or equivalent knowledge

In 2018, ICD awarded seven $1,000 scholarships to children and grandchildren of steelworkers.

The Tino Fulimeni Scholarship Fund was established to honor the memory of Brother Fulimeni. Tino was a fanatic about ICD. His commitment and contribution are evident in the success of the Career Development Program. The Fund is administered by the ICD.

Criteria to be met for eligibility of scholarship drawing:

- Applicant must be a high school graduate enrolled in college and beginning in the fall semester of 2019 or the spring semester of 2020 or a college student returning to school in the fall semester of 2019 or spring semester of 2019.

- Applicant must have maintained, in the past, at least a cumulative 3.0 grade point average and can demonstrate this with a transcript if selected.

- Applicant must be the child/grandchild of a steelworker who is currently eligible to participate in the Career Development Program

ICD will accept applications in their office until the deadline of May 25, 2019. Please submit applications to your local Career Development Program or mail to:

Tino Fulimeni Scholarship Fund
c/o The Institute for Career Development, Inc.
1300 East 85th Avenue
Merrillville, Indiana 46410

Applications can be obtained from JobLink, Leon Lynch, Riverdale or online at icdlearning.org/resources/tino-scholarship

◆Yoga Basics (12 wks)

Come try a very easy to follow, fun, and non-intimidating yoga class. Enter feeling tightly wound, physically and emotionally stressed, and needing some ME time. Leave stretched out, relaxed, energized, and calm of body and mind. This is a class that offers a wide range of opportunities to start slowly and gently and also to bump up your level with more advanced modifications. Everyone is encouraged to work within your bodies’ specific needs, abilities, and limitations. Great activity for couples. Make time for some peace and to soothe those aching joints. Prerequisites: None

Wed-Apr 24 to Jul 31  10am-11:30am or 3:30pm-5pm
No Class: May 1, Jun 5, Jul 3

JobLink     David Potesta

◆ Chill Out Wednesdays (4 wks)

Look forward to the first Wednesday yoga class of each month (5/1, 6/5, 7/3, and 8/7) being the relaxing retreat your body, mind, and spirit crave. This class can be taken separately from the Yoga Basics class; or better yet combine the two and join both. Learn relaxation and deep breathing techniques. Enjoy the gentle, soothing, guided meditations that bring your consciousness to a place of kindness, compassion, gratitude, and joy. (Wear warm layered clothing and bring a blanket if you’d like.) Prerequisites: None

Wed-May 1 to Aug 7  10am-11:30am or 3:30pm-5pm

◆ Gentle Seated Yoga (16 wks)

This class offers all the poses and stretches in a gentle and comfortable format without any of the strain or discomfort that many experience in a traditional class format. Great for those with joint, knee, or back issues and also for those who simply can’t or don’t want to get up and down off the floor. Beginners welcomed and encouraged to work at a level comfortable for you. This is not one of those “no pain, no gain” classes. In fact many participants say that it goes so fast and can’t believe it’s over; and marvel at the positive changes experienced in their bodies and stress levels. Prerequisites: None

Fri-Apr 26 to Aug 9  10am-11:30am or 3:30pm-5pm

JobLink     David Potesta

“My health has improved—less pain, more mobility.”

◆ Balance Ball Core Workout (15 wks)

This is a class that will bring you to the next level of fitness: stronger, steadier, leaner. Even the simplest of moves and stretches become more intense and challenging when you add the core ball to your workout. A weak core is a leading factor in lower back pain. When you strengthen your core you feel the effects not just in the lessening of back pain and strain but throughout your entire body. We have also opened the enrollment to retirees and spouses. Space is limited. Join now! Prerequisites: None

DID YOU KNOW?- In order for a spouse of an active steelworker to take a class, the active Local 1010 or 1011 member must have taken AND completed a class BEFORE the spouse can register. This must be done every year for the spouse to be eligible to take classes at JobLink or Leon Lynch. Only classes with a diamond (♦) next to the title are classes that spouses of active steelworkers are eligible to take. Spouses may begin registering one week prior to the class start date- (see the Spring—Summer 2019 R/S List of Classes and Registration Dates on pg. 28 for details). If you are a spouse registering for the first time, you are required to submit a spouse eligibility form.
Sublimation Printing (3 wks)

Sublimation printing is the method of applying an image and sayings to specially coated hard surface items such as ceramics, metals, fiber board and polyester cloth, using three main ingredients: sublimation ink, heat and pressure. In this class you will learn to use software to prepare your photo for the sublimation process and to use the special equipment required for the sublimation coating process. Come to class and bring your picture and/or phrase and choose an item such as a mug, t-shirt, a frame, box, or keychain and use the equipment to sublimate and take or give as a gift or memento. Prerequisites: None

**Digital Photography**  
(2 wks)

SLR digital cameras have so many features, yet most people just use the “auto” setting. Learn first-hand how to use all the cool features that are on your digital SLR camera.

Sat May 11—18  
9 to 12 noon  
With Chris Boyer

**Quicken-Home Version**  
(3 wks)

Having trouble finding out where all your money went? Come to this class and learn how to use your computer to keep track of all your bills, checks, deposits, etc. You will get a trial copy of Quicken with the class.

Wed May 1—2  
Noon to 2:30 OR 4 to 6:30 pm  
With CEI

**Heating and Air Conditioning**  
(64 wks)

Would you like to learn a new trade? The HVAC industry is the place to do it! With this knowledge you can be a VERY valuable asset to all of your family, friends and neighbors. You will have the ability to earn up to 7 Nationally recognized Certifications. With knowledge and training you can become a HVAC Certified Technician. Learn how to install, repair, and service HVAC equipment in the residential and light commercial fields. Employment of heating, air conditioning, and refrigeration mechanics and installers is projected to grow 14 percent from 2014 to 2024, much faster than the average for all occupations. The HVAC program meets 1 day a week for 64 weeks. Do not miss out on this incredible opportunity.

Please Note:

**Off-Site Class Registration**

Students interested in registering for off-site classes, must register through their career development center NOT the center hosting the class.
Something new!

Check out Leon Lynch’s new logo!

**Antique Replica Ceiling Tiles**
(2 wks)

Antique replica tins are mounted on a wooden frame and ready for faux finishing. We will use foils and paint to create a one-of-a-kind work of art for your home. The process ends with an epoxy top coat torched to give the illusion of glass or ceramic. You could turn this into a business!

Tue May 14—21                      8:00 am OR 3:00 pm
With Kim Riley

**Build Items for Your Garden**
( wks)

Planters and window boxes are great for gardening in small spaces. Mount the boxes below your windows and hang them from your deck to beautify your home. Come to class to design and build a great project.

Mon May 6—June 10                   8:00 am OR 4:00 pm
With Jim Balina

**Mosaic Epoxy Art**
( 3 wks)

Using shells, glass, sand or rock, students will create an arrangement which once glued will be covered in epoxy to create a lasting memory and a piece of art. This is a great way to use shells, coral and other treasures from past vacations.

Fri May 10—24                      8:00 am OR 4:00 pm
At 1777 Armstrong St               With Beth Harrigan
Portage, IN

Restricted Classes
Out of your $2,000 a year customized course allowance, you can only use $1,250 per year on restricted personal development classes.

Customized Courses
Each participant is limited to $2,000 annually for courses in this category. These are the classes created by the learning centers specifically for steelworkers. Nearly all of the classes in this category are advertised in our catalogs.

Tuition Assistance Program
The Tuition Assistance Program allows steelworkers to attend colleges and schools of their own choice as long as the schools are accredited institutions of post-secondary education or are recognized by a state board of vocational education. $2,500 in tuition assistance.

Issuance 14
Students who have an educational and career goal in mind and need more than $2,500 yearly to achieve those goals should apply for Issuance 14. If the student has a specific goal in mind, they have to create an educational development plan and apply for the combination of these funds. If approved, a steelworker may be eligible for up to $4,500 yearly.

Issuance 15
The ICD policy “Issuance 15” allows retirees access to tuition assistance if: That retiree has begun a career goal using TAP, has retired within the last 12 months, and if there is money available from the previous year’s tuition assistance budget.

Look for the ♦️
If space is available, any class with a diamond (♦️) next to the title is a class that Local 1010 and 1011 spouses and retirees are eligible to take. Classes without a diamond (♦️) next to it are for active steelworkers only!
